To Whom It May Concern

Speedy Yacht Management acted on behalf of the MY Cuor di Leone from November 2007 to May 2008.

In this time the yacht travelled extensively in the Seychelles from the northern islands to Aldabra in the south. During our travels I felt we were always in very good hand with Speedy's Yacht management. Nothing that was too much trouble for Speedy. There were many times that we found ourselves in a pinch with regard to flights, permits, immigration, clearing parts, dive operations or even good sheltered anchorages. Speedy always managed to come up with a solution.

On Cuor di Leone we travel extensively and deal with agents all over the world. I can definitely say that Speedy's Yacht Management can rub shoulder with the best of them. I found the costs to be most reasonable and was very pleasantly surprised by the honesty and integrity displayed by Speedy. The local knowledge of all the Seychelles islands and especially the outer islands came in very handy when it came to finding good anchorages, dive sites, fishing ground or just beautiful beaches. I look forward to dealing with Speedy's Yacht Management in the future and wish them the best of luck

Jon Visser
Captain, Cuor di Leone.
